II.1.5) Short description of the contract or purchase(s)

This procurement regards consulting services for the Swedish Radiation Safety Authority's (SSM) regarding seismology in connection to the review of geosphere performance for a repository for spent nuclear fuel. The work described here concerns for example the review of the SR-Site safety assessment published by the Swedish Nuclear Fuel and Waste Management Company (SKB). The SR-Site covers long-term nuclear safety and radiation protection for the post-closure phase and is part of the licence application by SKB. This procurement regards framework agreements to be established for a three-year review period. The framework agreements may be extended by a maximum of one additional year. This framework agreement may include other topics regarding seismology for consulting services for other organisational units at SSM. This can for example include review of frequency- and magnitude- distributions of natural earthquakes in connection with reviews of other nuclear facilities than the above described.

The procurement is handled by the procurement system Merzell. For questions and support please contact the support: +46 31-360 60 29.

Yours sincerely,

SECTION III: LEGAL, ECONOMIC, FINANCIAL AND TECHNICAL INFORMATION

III.1) CONDITIONS RELATING TO THE CONTRACT

III.1.1) Deposits and guarantees required

III.1.2) Main financing conditions and payment arrangements and/or reference to the relevant provisions regulating them

III.1.3) Legal form to be taken by the group of economic operators to whom the contract is to be awarded

III.1.4) Other particular conditions to which the performance of the contract is subject yes no

III.2) CONDITIONS FOR PARTICIPATION

III.2.1) Personal situation of economic operators, including requirements relating to enrolment on professional or trade registers

Information and formalities necessary for evaluating if requirements are met:
Tenderers will be excluded if the Swedish Radiation Safety Authority become aware of the presence of a circumstance as described in Chapter 10, Article 1 of the Public Procurement Act (2007:1091; 'LOU'). The tenderer must confirm in writing that none of the conditions stated in Chapter 10, Article 1 have arisen (see the Swedish Public Procurement Act).

Should any of the circumstances as described in Chapter 10, Article 2 of LOU be present, a tenderer may be excluded from the procurement process. This also applies to any sub-contractors. In order to monitor compliance, the Swedish Radiation Safety Authority reserves the right to, through the Swedish Tax Agency or UC AB, verify that tenderers have performed their obligations in terms of taxes and social security contributions. This is why tenderers and any sub-contractors are to provide their corporate identity number. If the Authority in the tenderer's home country does not release information about obligations concerning taxes and social

security contributions, and the reason for this is stated in the tender, a certificate can instead be signed by the managing director, chairperson of the board or the auditor of the company.

Requirements relating to legal status. With the aim of verifying that tenderers are entered in trade and business registers (in the event of this obligation), the Swedish Radiation Safety Authority will check to ensure that there are no related impediments. In terms of this requirement, no documents need to be attached: The Swedish Radiation Safety Authority will carry out checks through the UC AB, a credit information agency.

Information and formalities necessary for evaluating if requirements are met:

Minimum level(s) of standards possibly required

1) Tenderers shall provide a brief description of the company, its operations as well as its history

Tenderers shall submit a signed truth affirmation, showing that the tender is truthful (see appendix 4).

Consultants are to either be employees or cooperating partners (sub-contractors), though the tenderer is always fully responsible for the work performed by sub-contractors. The tenderer must state whether sub-contractors will participate in the stipulated supply capacity. In the event that tenderers wish to utilise the capacity of another party (sub-contractor), they must clearly state that they actually exercise control over the relevant resources (for example, through a certificate from the sub-contractor).

Quality assurance. The tenderer must actively perform quality assurance work. Please note that certification is not a requirement. Has this requirement been fulfilled? Describe how the tenderer performs quality assurance work.
